ADJUSTRITE® ESTIMATING EXCLUSIVES

POWERFUL NEW FEATURES

#### REAL-TIME ESTIMATING DATA

Combining unique procedural logic and Internet connectivity, the *AdjustRite*® system delivers the latest industry information you need to make smart, spot-on estimates. Its sophisticated software analyzes a database of parts and actual fleet repair data and delivers a detailed custom estimate. What's more, it's the only fleet estimating system that factors in the repair process in addition to associated parts and labor.

#### INFORMATION MANAGEMENT

Because the *AdjustRite* system was created exclusively for the heavy-duty truck and equipment market, it's tailored to the way you work. Protecting you from loss, the program keeps track of all estimate information—including photographs—on secure servers that are backed up daily. Additionally, you can create custom worksheets for your staff, such as work orders and parts lists, to ensure timely, quality repairs. The *AdjustRite* system makes it easy to create professionally formatted documentation to enhance your professional image.

#### "POINT AND CLICK" SIMPLICITY— ANYTIME, ANYWHERE

One reason *AdjustRite* estimating is so beneficial is because it's so easy to use. With intuitive menus and checkboxes, the system's automated features dramatically reduce the time it takes to write a professional estimate, thereby minimizing errors while improving overall estimating efficiency. To stay connected in the field, the *AdjustRite* system is as mobile as you are since it works seamlessly with Web-enabled tablets and mobile devices.

#### WEB-BASED COMMERCIAL ESTIMATING SYSTEM

THE ADJUSTRITE ONLINE PROGRAM PUTS THE INSIGHT OF REAL-TIME DATA TO WORK FOR YOU, GIVING YOU THE ABILITY TO CREATE ESTIMATES QUICKLY AND ACCURATELY.

#### KEY FEATURES INCLUDE:

- Create estimates and upload photos electronically.
- Store data on secure servers that are backed up daily. Never lose estimates or images again!
- Log in using any Internet connected device to create, access, or complete estimates.
- Access model and parts updates in real-time. No need for software or database updates!
- Multiple estimators or parts personnel can access and update all company estimates.

#### PROCEDURAL LOGIC

For optimal results, *AdjustRite* logic considers numerous replacement procedural operations, including Overhaul, Overlap, Included Operations, Additional Operations, and Additional Parts. This increases estimate accuracy and consistency, improves efficiency, and reduces errors and omissions.

#### TRUCK MAKES AND MODELS DATABASE

- Over 100 of the most popular heavy- and medium-duty truck makes and models are available
- New truck makes and models are added to the database continuously
- Generic databases are available for dry vans, reefers, flatbeds, dump bodies and school bus chassis and bodies
- Users can also create their own custom databases, including parts, labor and pricing

#### PART PRICING PREFERENCES

For flexibility and convenience, you can tailor your estimate by selecting either Facility Pricing or Global Pricing on a claim-by-claim basis.

#### FACILITY PRICING:

- Use your company's specific pricing
- System stores the last price and part number that was entered for the specified part
- Pricing and part numbers can be changed on the estimate

#### GLOBAL PRICING:

- Provides a part specific average price entered by the program's user community
- Pricing can be changed on the estimate
- System automatically updates the average price based upon global user input

#### PHOTO MANAGEMENT

Keeping accurate photo documentation has never been easier. Simply upload and store your photos to our secure servers.

- Images are conveniently stored with estimate and claim information
- Damage descriptions can be added to images

#### EMS DATA MANAGEMENT

The *AdjustRite* system utilizes the industry standard for importing and exporting EMS data. This built-in compatibility streamlines data management, eliminating the need for double entry from the *AdjustRite* estimating system to another, saving you time and improving accuracy.

#### EXPORTING EMS DATA

- Transmits data to shop management systems, claims management software, and industry portals that handle EMS data without the need for expensive, custom development
- Saves development costs, time and maintenance
- Promotes electronic processing of information with customers

#### IMPORTING EMS DATA

- *AdjustRite* importing accepts estimate data from many leading industry systems
- Channels data through one system for data management, auditing, and reporting purposes

#### MULTI-PLATFORM SUPPORT—COMING SOON

*AdjustRite* estimating will adapt to the way you work. Our advanced software will be enhanced to perform seamlessly with most Internet browsers as well as a variety of hardware platforms.

#### SOFTWARE:

- Compatible with Internet Explorer®
- Coming soon—compatibility with Safari®, Google Chrome™, Mozilla Firefox®, and Opera® browsers

#### FREE TRIAL OFFER

Now you can see firsthand how *AdjustRite* uses real-time data and proprietary logic to create heavy-duty truck estimates. For a trial offer, simply go to [www.adjustrite.com](http://www.adjustrite.com) and click on the "AdjustRite" icon in the lower left of the home page. After the jump, click the "Try AdjustRite" link and then submit a completed registration form. You will be emailed login credentials within 24 business hours.
