CLAIMS MANAGEMENT FEATURES

MOBILE, AVAILABLE 24/7

SAVE DESK TIME. INCREASE PRODUCTIVITY.

Writing estimates can be time consuming and data intensive, but by taking advantage of the *AdjustRite® Plus* claims management system, these tasks can be created and managed more quickly and efficiently than ever before. The *AdjustRite Plus* application allows you to store photos, write field notes, develop parts lists, obtain salvage bids, construct total loss evaluations, complete equipment and condition reports, and much more. You can then email required files in just a few simple steps. Not only is the *AdjustRite Plus* system a time saver, it protects your data too. All information is stored on a high security server that is backed up daily, so your data is guarded from being lost or stolen.

PROPRIETARY TECHNOLOGY.

The *AdjustRite Plus* system is a full-service application that takes into consideration the overall commercial truck repair and claims process. Trusted by truck repair facilities across North America, the innovative, Web-based estimating technology delivers real-time information and logic, adding accuracy and consistency to your process.

"POINT AND CLICK" SIMPLICITY— ANYTIME, ANYWHERE.

One reason the *AdjustRite Plus* system is so productive is because it's so easy to use. With an intuitive interface the program's automated features dramatically reduce the time it takes to create claims information while minimizing the chances of error. To keep you connected while in the field, the *AdjustRite Plus* platform works on a wide variety of Windows®-based mobile devices.

TRUCK MAKES AND MODELS DATABASE

- Over 100 of the most popular heavy- and medium-duty truck makes and models are available
- New truck makes and models are continuously added to the database
- Generic databases are available for dry vans, reefers, flatbeds, dump bodies and school bus chassis and body
- Users can also create their own custom databases, including parts, labor and pricing
